

International Virtual Event: Global Smart Villages

Circular Economy - How Smart Can It Be?

mag. Ladeja Košir Godina, Founder and Executive Director at Circular Change / Chair ECESP

What do we mean by "smart"? Does it refer to technology or to the knowledge and wisdom of the community? The circular economy is offering a great framework for the co-creation of resilient and thriving life in rural as well as in urban areas - by connecting and maintaining the value of all types of capital. Let's see, who is already walking the talk!

About the speaker

Ladeja Godina Košir, MSc., is an international circular economy expert, speaker, and moderator, Founder & CEO of Circular Change, Co-leader of the Research Group CE Systems at the BCSSS and Chair of the European Circular Economy Stakeholder Platform (ECESP).

Ladeja is the co-author of the Roadmap towards the Circular Economy in Slovenia, Serbia, Montenegro and Chile. She was the finalist of The Circular Leadership Award 2018 (Davos WEF) and is featured #EUwomen4future by EU Commission.
